February 25, Saturday, 10am – 12pm

Squirrel Rehabilitation

February 25, Saturday, 1pm - 3pm

Transporting Wildlife

February 26, Sunday, 10am - 12pm

Spiders, Snakes & Lizards, Oh My!

Come learn about the benefits of snakes and other commonly feared wildlife. This live animal presentation will educate you about the important roles these creepy crawlers play in our ecosystems giving you a deeper appreciation and understanding of them.

February 26, Sunday, 1pm - 3pm

Surviving the Urban Jungle

As people continue to expand their territory, wild animals find themselves greatly impacted by people. This can result in difficult situations for the wild animals who don't know how to navigate an increasingly urbanized landscape. This presentation is delivered by a wildlife rescuer with photos and stories about helping our wildlife.

March 4, Saturday, 10am-12pm

Certify Your Habitat to Help Wildlife

Creating a wildlife habitat garden to attract birds, butterflies, and other neighborhood wildlife is fun and makes a big difference. It's easier than you might think!

March 4, Saturday, 1pm-3pm

Raptor Rehabilitation

March 11, Saturday, 10am - 12pm

WRMD (Electronic Medical Records)

March 11, Saturday, 1pm - 3pm
